The Contributor has such knowledge and experience in business matters related to cryptocurrencies, blockchain and Miro Token Offerings, and that the Contributor is capable of evaluating the merits and risks of such an exchange, including the possibility of a complete loss of Miro Token value.
- 6.3. The Contributor enters into this SAFT with the clear understanding that (i) he, she or it, as the case may be, is purchasing Miro Tokens intended of being exchanged for subscription to the Strategy Product on the Mirocana platform upon the successful development and Platform Launch arising from the efforts of the Company and its employees to develop and market the Mirocana platform and the Platform Launch; and (ii) the Company may, without being obliged to, release of Miro Tokens to cryptocurrency exchanges and may integrate Miro Tokens in popular wallets for the sole purpose of promoting the exchange of its Miro Tokens by other Persons.

WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, THE CONTRIBUTOR ASSUMES ALL RISK AND LIABILITY FOR THE RESULTS OBTAINED BY THE USE OF ANY MIRO TOKENS AND REGARDLESS OF ANY ORAL OR WRITTEN STATEMENTS MADE BY THE COMPANY, BY WAY OF TECHNICAL ADVICE OR OTHERWISE, RELATED TO THE USE OF THE MIRO TOKENS.
- 6.5. The Contributor understands that Contributor has no right against the Company or any other Person except in the event of the Company's breach of this Agreement or intentional fraud.

6.6. The Contributor understands and accepts the risks in connection with making a exchange of Miro Tokens. The Contributor understands the inherent risks listed hereinafter:

- 6.6.1. Risk of software weaknesses: the Contributor understands and accepts that the smart contract system concept, the underlying software application and software platform (i.e. the blockchain) is still in an early development stage and unproven. There is no warranty or assurance that the process for creating Miro Tokens will be uninterrupted or error-free and there is an inherent risk that the software could contain weaknesses, vulnerabilities or bugs causing, inter alia, the complete loss of Miro Tokens.
- 6.6.2. Regulatory risk: the Contributor understands and accepts that the blockchain technology allows new forms of interaction and that it is possible that certain jurisdictions will apply existing regulations on, or introduce new regulations addressing, blockchain technology based applications, which may be contrary to the current setup of the smart contract system and which may, inter alia, result in substantial modifications of the smart contract system and/or the Miro Token, including its termination and the loss of Miro Token for the Contributor.
- 6.6.3. Risk of abandonment / lack of success: the Contributor understands and accepts that the creation of the Miro Token and the development of the Miro Token and/or Mirocana platform may be abandoned for a number of reasons, including lack of interest from the public, lack of funding, lack of commercial success or prospects (e.g. caused by competing projects). The Contributor therefore understands that there is no assurance that, even if the Miro Token and/or Mirocana platform is partially or fully developed and launched, the Contributor will be able to use the Miro Token held by him.
- 6.6.4. Risk associated with other applications: the Contributor understands and accepts that the Miro Token and/or Mirocana platform may give rise to other, alternative projects, promoted by unaffiliated third parties, under which the Miro Token will have no intrinsic value.
- 6.6.5. Risk of loss of private key: Miro Tokens can only be accessed by using an Ethereum wallet with a combination of Contributor's account information (address), private key and password. The private key is encrypted with a password. The Contributor understands and accepts that if his private key file or password respectively gets lost or stolen, the obtained Miro Tokens associated with the Contributor's account (address) or password will be unrecoverable and will be permanently lost. Additionally, any third party that gains access to the Contributors private key, including by gaining access to the login credentials relating to the Contributor's Ethereum wallet, may be able to misappropriate the Contributor's Miro Tokens.
- 6.6.6. Risk of theft: The Contributor understands and accepts that the smart contract system concept, the underlying software application and software platform (i.e. the Ethereum blockchain) may be exposed to attacks by hackers or other individuals that could result in theft or loss of Miro Token or ETH, impacting the ability to develop the Miro Token and/or Mirocana platform.
- 6.6.7. Risk of Ethereum mining attacks: The Contributor understands and accepts that, as with other cryptocurrencies, the blockchain used for the smart contract system is

susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, “selfish-mining” attacks, and race condition attacks.

Any successful attacks present a risk to the Smart Contract System, expected proper execution and sequencing of Miro Token transactions, and expected proper execution and sequencing of contract computations.

6.6.8. Risk of incompatible Wallet service: The Contributor understands and accepts that the wallet or wallet service provider used for the contribution, must be technically compatible with the Miro Token. The failure to assure this may have the result that Contributor will not gain access to his or her Miro Token.

7. The Contributor understands that Contributor bears sole responsibility for any taxes as a result of the matters and transactions the subject of this Agreement, and any future acquisition, ownership, use, Offering or other disposition of Miro Tokens held by the Contributor. To the extent permitted by law, the Contributor agrees to indemnify, defend and hold the Company or any of its affiliates, employees or agents (including developers, auditors, contractors or founders) harmless for any claim, liability, assessment or penalty with respect to any taxes (other than any net income taxes of the Company that result from the issuance of Miro Tokens to the Contributor associated with or arising from the Contributor’s exchange of Miro Tokens hereunder, or the use or ownership of Miro Tokens.

8. The Contributor’s making a payment and receiving Miro Tokens under this Agreement is not unlawful or prohibited in the Contributor’s jurisdiction or in any other jurisdiction to which the Contributor may be subject. Any contribution made under this Agreement is not derived from or related to any unlawful activities, including but not limited to money laundering or terrorist financing activities, and the Contributor will not use the Miro Tokens to finance, engage in, or otherwise support any unlawful activities.

9. The Contributor understands and accepts that Miro Tokens do not represent or constitute:

- 9.1. any ownership right or stake, share, equity, security, commodity, bond, debt instrument or any other financial instrument or investment carrying equivalent rights;
- 9.2. any right to receive future revenues, profits, shares, equities, securities or any other form of participation or governance right in or relating to Mirocana;
- 9.3. any form of money or legal tender in any jurisdiction nor do they constitute any representation of money (including electronic money); or

Agreement.

7.2. Subject to clause 27 above, and except in an event of any damage caused by a Party's willful default and/or gross negligence, in no circumstances will either Party be liable to the other Party (whether in contract, tort, breach of statutory duty, restitution or otherwise) for any of the following types of losses:
